

STATE REPRESENTATIVE ROB MERCURI

It's an honor to serve as your state representative in the 28th Legislative District. Thank you for trusting me to be your voice in Harrisburg. I will be working hard every day to advance policies that improve the lives of people and families in our region.

As a husband, father of three, military veteran, and small business owner in Pine Township, my priorities will focus on pro-growth policies that improve and protect our region for all Pennsylvanians and make our Commonwealth a desirable place to live, work and raise a family.

My involvement in our community connects me to people and ideas, and it helps me serve your needs. Please contact me at one of my offices or online to share your thoughts, feedback, or any concerns you may have for me on any state-related matter.

Thank you,

Rob

FISCAL RESPONSIBILITY

We must **lower taxes** and spend responsibly by making targeted investments in our economy, schools and other vital programs and services. As Pennsylvanians continue to face unprecedented inflation and financial pressures, we must drive growth and hold agencies accountable.

RESPONSIBLE ENERGY EXPANSION

Establish energy independence in order for Pennsylvania to remain a top energy producer and exporter. It is essential to end our reliance on foreign adversaries for oil and gas, as well as end our involvement in the job-killing Regional Greenhouse Gas Initiative and instead innovate the future energy economy for our region.

PUTTING STUDENTS FIRST

Fund students first so every child can have **access to the highest quality education** the Commonwealth has to offer, regardless of ZIP code. Establishing the Lifeline Scholarship Program, investing in our great teachers and fully funding education programs are essential.

GOVERNMENT THAT WORKS FOR US

I will seek out the best version of government that works in the best interest of Pennsylvanians first and does not overstep its bounds. This includes advancing **voter identification** and election integrity reform, limiting the duration of executive orders, **ending invasive medical mandates** and holding ineffective bureaucracies accountable.

Getting the Job Done: Rep. Mercuri with several colleagues and business stakeholders at the Governor's signing of legislation authorizing Highly Autonomous Vehicles to move forward in Pennsylvania.
